PROFESSIONAL SUMMARY

Frontend Developer with 3 years of experience in web development, including 2 years building React.js applications with JavaScript (ES6+), TypeScript, Tailwind CSS and Bootstrap. Experienced in reusable components, state management, form validation, authentication flows and REST API integration with Laravel backends. Skilled at converting Figma designs into pixel-perfect, responsive, cross-browser UIs. Additional experience delivering CMS websites using WordPress, Webflow and Wix.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, React Hooks, Responsive Web Design, Mobile-First Design, Cross-Browser Compatibility

Backend & APIs: REST API Integration, Laravel, PHP, Node.js (basic), MySQL, CRUD Operations, Authentication

CMS & Page Builders: WordPress, Webflow, Wix, Elementor, Divi, Gutenberg, Beaver Builder, WPBakery, GoHighLevel

Tools: Git, GitHub, Bitbucket, Vite, npm, Figma, Canva, Adobe Photoshop, Visual Studio Code

WORK EXPERIENCE

Frontend Developer (React.js) | Vidya Online Services Pune Pvt. Ltd. **Nov 2024 - Present**
Pune, Maharashtra

- Developed and maintained 10+ responsive, scalable web and mobile applications using React.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS and Bootstrap.
- Converted Figma wireframes into reusable, pixel-perfect React components in collaboration with UX/UI designers, following mobile-first design principles.
- Built 15+ reusable UI components, reducing development time for new features by approximately 20-25%.
- Integrated REST APIs with a Laravel backend, including login authentication and CRUD modules.
- Built forms with validation and managed application state using React Hooks.
- Worked on database-driven applications with the backend team, supporting debugging and end-to-end workflows.
- Ensured cross-browser compatibility, accessibility (WCAG-aligned) and responsive layouts across desktop, tablet and mobile devices.
- Used Git and Bitbucket for version control, with branching, pull requests and code reviews in a team environment.

Web Developer | Walstar Technologies Pvt. Ltd. **Sep 2023 - Sep 2024**
Kolhapur, Maharashtra

- Designed and developed responsive business websites using WordPress, Webflow and Wix for multiple clients.
- Customized templates using Elementor, Divi, Beaver Builder, WPBakery, GoHighLevel and Gutenberg; built custom layouts and landing pages.
- Built Wix websites with template customization and Wix Apps integration based on client requirements.
- Managed plugins, themes and CMS settings; handled bug fixes, content updates, SEO-friendly structure and performance optimization.
- Used HTML5, CSS3, JavaScript, Bootstrap and basic PHP to customize CMS-based websites.

PROJECTS

Personal Portfolio Website | React.js, JavaScript, Tailwind CSS, HTML5, CSS3 | pranalis-portfolio.vercel.app

- Designed and developed a responsive portfolio showcasing projects, skills and experience; deployed on Vercel.

Ticketing Management System | React.js, Laravel, REST API, MySQL | ticketing-management-frontend.vercel.app

- Built a full-stack ticketing management application with a React.js frontend and a Laravel REST API backend, deployed on Vercel.
- Implemented login authentication, ticket CRUD operations, form validation and state management using React Hooks.
- Integrated frontend with Laravel APIs for data handling and designed a responsive, user-friendly interface.
